“

Preen is a weed preventative!
It stops weeds before they
even sprout rather than killing
them after they've already had
the chance to grow.

REPOTTING SEASON!

Now that the Daylight Saving has passed – and the temperature is beginning to rise – the growing season is finally among us!

If your plant needs more room to grow, now is the time to upgrade it to a pot about 2 inches larger than the size of its previous pot.

STRADERS has a wide variety of Espoma Organic Soils meant for different types of houseplants plants. Cactus Mix is a well draining soil for all cacti/succulents, palms and citrus. Orchid Mix is a bark filled favorite!
