'YELLOW GEM'

'SHIVEREANA'

IS LEAF SHINE REALLY A PLANT ESSENTIAL?

Plant shine isn't JUST for aesthetic reasons. While shiny, glossy leaves are always a plus, it also helps the plant to receive more sunlight! Dust and dirt covered leaves are going to slightly impact a plants ability to absorb the sun.

So with a pair of gentle leaf cleansing gloves, and/or plant shine, you can help maximize your plants efforts. Remember, this strategy works best for plants, with thick, waxy leaves- not recommended for plants like succulents, ferns, fittonia, etc!
